ALUTRONIC
SOLUTIONS FOR COOL RESULTS

Product Data Sheet Type: MC786

Group: ACCESSORIES Mounting Material

Mounting clips

For device :	TO 218|TOP 3
Device mounted by :	Clip Mounting
Material :	Stainless Steel

Mounting clips facilitate the safe and efficient mounting of semiconductors to heatsink with the corresponding hole pattern.
Especially for insulated mounting, a clip provides reliability by making screws and insulation bushes dispensable.
Central contact pressure distributes the heat conductivity equally across the semiconductor/hestsink contact surface.
- Material: Stainless steel (1.4310)
- For cases: TOP3 (TO218)
