

Product Data Sheet Type: IL555/25

Group: ACCESSORIES Thermal Interface Material

Insulation caps + tubes

For device : TO 220
Device mounted by : Clip On|Stick On
Material : Silicon Rubber

Insulation caps of insulation tubes from silicone rubber with high heat conductivity, makes the insulated mounting of semiconductors very simple, e.g. to heatsinks for clip mounting.

Color: grey

Dielectric strength: app. 10 KV

Temperatur range: -60 / +180 °C

Hardness: 75 Shore A

Elongation: 100 %

Flammability: UL 94 VO

Rth: 1,48 K/W

Thermal resistances Rth (K/W) without Thermal compound.
