

Product Data Sheet Type: AO474

Group: ACCESSORIES Thermal Interface Material

Aluminium - oxyde washers

Electrical insulating :	15 kV
Thickness :	1,5
Dielectriccoefficient :	9,1 at 1MHz
Minimum thermal resistance :	0,5 K/W
For device :	TO 220
Device mounted by :	Screw
Material :	Alumnium Oxyde

Insulation wafer - aluminium oxidefacilitate insulated mounting of semiconductors within high voltage ranges.In spite of high dielectric strength, a good heat conductivity is given.
